

California Regional Blueprint Planning Grant  
Fact Sheet  
San Luis Obispo Council of Governments

**Project Goal**

Develop Blueprint Plan that will address the region's 20 year mobility, housing and employment needs as they relate to the regional transportation plan.

**Project Description**

In collaboration with San Luis Obispo County Air Pollution Control District, Local Agency Formation Commission (LAFCO), the Cal Poly GIS Technology Lab, County Planning and Building Department, County Agriculture Commissioner's Office, Countywide Planning/ Community Development Directors the following will be accomplished:

1. Prepare a *Draft Vision Statement* using the issues identified at the *Focus on the Future, Designing the Future, and It Takes our Region* Conferences, the *Compact 2000* efforts and the smart growth elements of member jurisdiction's General Plans.
2. Evaluate key transportation, housing, economic, resource and pollution issues that were addressed in the Fall 2005 workshops.
3. Survey community regarding on transportation and growth related issues; work with member agencies to refine policies and actions; and provide member jurisdictions the tools to conduct effective public participation programs.
4. Conduct regional land use-transportation modeling that incorporates long-range socio-economic projections for analysis of potential areas of impact (UPLAN or IPLACES).

**Grant Award: \$226,800 FY 2005/06**

**Product**

1. Materials for modeling and workshops
2. Community Services, IPLACES, "clicker" technology, UPLAN Training
3. Travel Model Workshop Integration
4. GIS Modeling, Mapping, and Data Management
5. Summary Report

**Who Benefits**

General Public, state and local governments, private business, and community at large.
